

## Reading list for Molecular Physics, TFYA35, 2022

### Books

#### Recommended literature

Atkins, de Paula & Friedman, "Physical Chemistry: Quanta, matter and change", Oxford University Press 2013, 2nd ed., ISBN 9780199609819.

#### Alternative literature

Engel, "Quantum chemistry & spectroscopy, 3rd ed", Pearson (part of Engel & Reid, "Physical Chemistry", Pearson)

Silbey, Alberty & Bawendi, "Physical chemistry, 4th ed", John Wiley

Levine, "Physical Chemistry, 6th ed", McGraw Hill
