

English

Programme course

6 credits

Engelska

THEN18

Valid from: 2017 Spring semester

Determined by
Board of Studies for Industrial
Engineering and Logistics

Date determined
2017-01-25

Main field of study

No Main Field of Study

Course level

First cycle

Advancement level

G1X

Course offered for

- Computer Science and Engineering, M Sc in Engineering
- Information Technology, M Sc in Engineering
- Computer Science and Software Engineering, M Sc in Engineering
- Physics and Nanotechnology
- Chemical Biology, M Sc in Engineering
- Engineering Biology, M Sc in Engineering
- Applied Physics and Electrical Engineering, M Sc in Engineering
-
- Design and Product Development, M Sc in Engineering
- Energy-Environment-Management M Sc in Engineering
- Mechanical Engineering, M Sc in Engineering
- Industrial Engineering and Management, M Sc in Engineering
- Chemical Biology
- Mathematics

Specific information

The course is not available for exchange students

Entry requirements

Note: Admission requirements for non-programme students usually also include admission requirements for the programme and threshold requirements for progression within the programme, or corresponding.

Intended learning outcomes

To develop the students' sense of correct and appropriate use of the English language in different situations.

After completion of the course the students will have the ability to use the language to communicate appropriately both verbally and through written work. Students will actively take part in ongoing discussions in class. The students will be able to understand and discuss texts of different topics and get a better command of vocabulary, phraseology and terminology connected to technology, economics and natural sciences.

Course content

The course is given in English and consists of the following elements: oral presentations, reading and discussion around news/journal articles, technical texts, different types of language exercises and written work such as letter writing.

Teaching and working methods

The lectures are mainly given in seminar form and are built around the active participation of the students in discussions, written work and oral reports. The course runs over the entire semester.

Examination

MUN2	Oral examination and assignments	3 credits	U, 3, 4, 5
TEN1	Written examination	3 credits	U, 3, 4, 5

Grades

Four-grade scale, LiU, U, 3, 4, 5

Department

Institutionen för ekonomisk och industriell utveckling

Director of Studies or equivalent

Johan Holtström

Examiner

Pamela Vang

Education components

Preliminary scheduled hours: 48 h

Recommended self-study hours: 112 h

Common rules

Regulations (apply to LiU in its entirety)

The university is a government agency whose operations are regulated by legislation and ordinances, which include the Higher Education Act and the Higher Education Ordinance. In addition to legislation and ordinances, operations are subject to several policy documents. The Linköping University rule book collects currently valid decisions of a regulatory nature taken by the university board, the vice-chancellor and faculty/department boards.

LiU's rule book for education at first-cycle and second-cycle levels is available at http://stydokument.liu.se/Regelsamling/Innehall/Utbildning_pa_grund-_och_avancerad_niva.
