## Course offered for

- Bachelor's Programme in Graphic Design and Communication

## Prerequisites

Visual Culture and Design History

## Intended learning outcomes

The course highlights communication as a cultural and social phenomenon focusing on the part of communication that can be described as mediated. Theories about the relationship between society and the media are introduced. The aim of the course is to give the student an overview but also specific knowledge of the theoretical perspectives regarding mediated communication, such as convergence cultures and remediation.

Upon completion of the course, the student will:

- Briefly account for current theoretical perspectives regarding mediated communication
- Describe different approaches to mediated communication
- In speech and speech bring a reasoning and critical reflection on media in society

## Course content

- Communication theories
- Relationship between society and the media
- Theoretical perspectives on mediated communication

## Teaching and working methods

The teaching of the course is provided through lectures, seminars and project works in groups.

Seminars and project works are compulsory for all students.
