

# Reading list for Analog and Discrete-Time Integrated Circuits, TSTE27, 2021

## **Compulsory literature**

#### **Other**

Distributed material during the course.

### **Additional literature**

#### **Books**

Allen and Holberg, CMOS Analog Circuit Design

Gray, Hurst, Lewis, and Meyer, Analysis and Design of Analog Integrated Circuits

Johns and Martin, (2013) Analog Integrated Circuit Design John Wiley & Sons

Razavi, Design of Analog CMOS Integrated Circuits
