

## **Reading list for Analog and Discrete-Time Integrated Circuits, TSTE27, 2023**

### **Regularly literature**

#### **Other**

Distributed material during the course.

### **Additional literature**

#### **Books**

Allen and Holberg, *CMOS Analog Circuit Design*

Gray, Hurst, Lewis, and Meyer, *Analysis and Design of Analog Integrated Circuits*

Johns and Martin, (2013) *Analog Integrated Circuit Design* John Wiley & Sons

Razavi, *Design of Analog CMOS Integrated Circuits*
