Single subject and programme course

11 credits

Kommunicera på spanska 5

713G21

Valid from:

**Determined by**  
The Quality Board at the Faculty of Arts  
and Sciences

**Date determined**  
2011-02-18

## Main field of study

Spanish

## Course level

First cycle

## Advancement level

G1X

## Course offered for

- International Business and Economics Programme

## Entry requirements

The entry requirements that apply for admission to the International Programme in Business and Economics.

## Intended learning outcomes

On completion of the course, the students should, in speech and writing, and with such precision in the language that it can be understood and accepted by a professional in economics or in related fields within the Spanish language area, be able to

- describe legal aspects of enterprise and rules on the labour market
- describe characteristic features in the business culture of the language area
- identify and discuss differences and similarities in these conditions and economic relations in relation to Swedish conditions

## Course content

The general aim of the course is that the students should develop their communicative ability in Spanish. This is done in a context where the students develop knowledge about Spanish-speaking countries, with an emphasis on international enterprise from an inter-cultural perspective.

The course builds on the previous language courses "Communicate in Spanish 1-4". Through studying documents with primarily social and economic contents, the linguistic communication ability is trained towards higher linguistic precision in a context that is relevant to the education as a whole. The course contents are, among other things, related to the earlier programme courses within economy with an emphasis on the courses Financial Economics, International Business and International Business Law.

## Teaching and working methods

Lectures and seminars. The students should also study independently.

## Examination

The aims of the course are examined through project work, written assignment and written examination. Detailed information can be found in the study guide.

## Grades

Three-grade scale, U, G, VG

## Other information

Planning and implementation of a course must take its starting point in the wording of the syllabus. The course evaluation included in each course must therefore take up the question how well the course agrees with the syllabus. The course is carried out in such a way that both men's and women's experience and knowledge is made visible and developed.

## Department

Institutionen för ekonomisk och industriell utveckling
