

Cognitive Science Methods - Individual In-Depth Studies

Single subject and programme course

6 credits

Kognitionsvetenskaplig metodfördjupning

729A67

Valid from:

Determined by

The Quality Board at the Faculty of Arts and Sciences

Date determined

2010-09-24

Offered for the last time

Autumn semester 2018

Main field of study

Cognitive Science

Course level

Second cycle

Advancement level

A₁X

Course offered for

• Master Programme in Cognitive Science

Specific information

The course is disused. Offered for the last time Autumn semester 2018.

Examination is offered on a total of at least five occasions for each examination component.

These occasions should be distributed across at least two semesters following the final ordinary course instance. These can be found in the course's last course room in Lisam.

Contact the department to access the course room.

Entry requirements

For admission to the course, the specific entry regulations that apply for admission to the master's education in Cognitive Science must be satisfied.

Intended learning outcomes

On completion of the course, the student should be able to - present advanced knowledge in a cognitive science method.

Course content

Individually adapted to the chosen method. Examples of methods:

- Programming
- Empirical studies
- System evaluation

Teaching and working methods

The student works independently with a cognitive science method under supervision by a researcher with the required method competence.

Examination

The course is examined through a written report. Detailed information can be found in the study guide.

Students failing an exam covering either the entire course or part of the course twice are entitled to have a new examiner appointed for the reexamination.

Students who have passed an examination may not retake it in order to improve their grades.

Grades

Three-grade scale, U, G, VG

Other information

Planning and implementation of a course must take its starting point in the wording of the syllabus. The course evaluation included in each course must therefore take up the question how well the course agrees with the syllabus. The course is carried out in such a way that both men's and women's experience and knowledge is made visible and developed.
