Main field of study

General Linguistics

Course level

First cycle

Advancement level

G1X

Course offered for

- Bachelor's Programme in Cognitive Science

Entry requirements

Apart from the general entry requirements, the specific entry requirements that apply for admission to the Bachelor's Programme in Cognitive Science must be satisfied.

Intended learning outcomes

On completion of the course, the student should be able to:

- account for basic concepts in linguistics, and by means of these
- carry out an elementary linguistic analysis with specific application on Swedish spoken and written language
- account for the language and speech of humans as a cognitive ability and a communicative system.

Course content

Course content focuses on:

- Training on how to apply linguistic analysis, such as syntactic, semantic and pragmatic analysis
- Review of basic linguistic concepts
- Parts of speech, phrases and clauses
- Expression and content
- Meaning and importance
- To say and to mean
- Language and communicative action
- Language and cognition
- Perspectives on language
- Language and interaction

Teaching and working methods

The teaching takes the form of lectures and analytical exercises in group seminars. The student is expected to study independently, individually or in groups.

Examination

The course is examined through written tests, written assignments and oral presentations.

Grades

Three-grade scale, U, G, VG

Other information

Planning and implementation of a course must take its starting point in the wording of the syllabus. The course evaluation included in each course must therefore take up the question how well the course agrees with the syllabus.

The course is carried out in such a way that both men's and women's experience and knowledge is made visible and developed.
