Revision date

2010-10-28

Main field of study

Public Health

Course level

Second cycle

Advancement level

A1X

Grades

,

Other information

The planning and implementation of a course must take its starting point in the wording of the syllabus. The course evaluation included in each course must therefore take up the question how well the course agrees with the syllabus. The course is carried out in such a way that both men's and women's experience and knowledge is made visible and developed.
