

Chemistry (16-30 cr)

Programme course

15 credits

Kemi (16-30 hp)

93KE27

Valid from:

Determined by
The Board of Educational Science

Date determined
2013-10-31

Offered for the last time
Autumn semester 2023

Main field of study

Chemistry

Course level

First cycle

Advancement level

G1X

Course offered for

- Secondary School Teacher Programme with a specialization in Teaching in Grades 7-9 of the Compulsory School, subject Biology
- Secondary School Teacher Programme with a specialization in Teaching in Grades 7-9 of the Compulsory School, subject English
- Secondary School Teacher Programme with a specialization in Teaching in Grades 7-9 of the Compulsory School, subject Mathematics
- Secondary School Teacher Programme with a specialization in Teaching in Grades 7-9 of the Compulsory School, subject Swedish
- Secondary School Teacher Programme with a specialization in Teaching in Grades 7-9 of the Compulsory School, subject Wood and Metal Craft
- Secondary School Teacher Programme with a specialization in Teaching in Grades 7-9 of the Compulsory School, subject Textile Craft

Examination

Applies to all courses regardless of grading scale.

- Students failing an exam covering either the entire course or part of the course two times are entitled to have a new examiner appointed for the reexamination.

If the course has a three-graded grading scale (U - VG), following applies:

- Students who have passed an examination may not retake it in order to improve their grades.

If the course is a VfU course, the following applies:

- Examination of applied social and didactic abilities is limited to three (3) occasions.

Grades

Three-grade scale, U, G, VG

Other information

Planning and implementation of a course must take its starting point in the wording of the syllabus. The course evaluation included in each course must therefore take up the question how well the course agrees with the syllabus.

The course is carried out in such a way that both men's and women's experience and knowledge is made visible and developed.

Department

Institutionen för fysik, kemi och biologi
