

CAD, second course

Programme course

6 credits

CAD fk

TMKT73

Valid from: 2017 Spring semester

Determined by

Board of Studies for Mechanical
Engineering and Design

Date determined

2017-01-25

Offered for the last time

Autumn semester 2021

Replaced by

TMPR03

Main field of study

Mechanical Engineering

Course level

First cycle

Advancement level

G2X

Course offered for

- Mechanical Engineering, B Sc in Engineering
- Energy-Environment-Management

Entry requirements

Note: Admission requirements for non-programme students usually also include admission requirements for the programme and threshold requirements for progression within the programme, or corresponding.

Intended learning outcomes

The course will provide in-depth knowledge of the CAD tool's role in the product development process and how it is used effectively. After the course the student will:

- Demonstrate ability to plan for the creation of a complex CAD model of a major product consisting of several subsystems.
- Be able to make strategic decisions regarding the model's overall structure.
- Be able to make effective use of a widely used tool for product data management.

Course content

Planning of CAD projects. Model structure. The choice of nomenclature. Integration of CAD system / PDM systems. Product data management with PDM systems.

Teaching and working methods

Teaching consists of lectures and supervised lab sessions in computer classrooms. The examination consists of a project assignment followed by a written report.

Examination

PRA1 Project work 6 credits U, G

Grades are given as 'Fail' or 'Pass'.

Grades

Two-grade scale, U, G

Department

Institutionen för ekonomisk och industriell utveckling

Director of Studies or equivalent

Peter Hallberg

Examiner

Peter Hallberg

Books

Common rules

Regulations (apply to LiU in its entirety)

The university is a government agency whose operations are regulated by legislation and ordinances, which include the Higher Education Act and the Higher Education Ordinance. In addition to legislation and ordinances, operations are subject to several policy documents. The Linköping University rule book collects currently valid decisions of a regulatory nature taken by the university board, the vice-chancellor and faculty/department boards.

LiU's rule book for education at first-cycle and second-cycle levels is available at http://stydokument.liu.se/Regelsamling/Innehall/Utbildning_pa_grund-_och_avancerad_niva.
