

# System Safety

Programme course

6 credits

Systemsäkerhet

**TMKT77** 

Valid from: 2017 Spring semester

**Determined by** Board of Studies for Mechanical Engineering and Design

**Date determined** 2017-01-25

# Main field of study

**Mechanical Engineering** 

### Course level

Second cycle

## Advancement level

A<sub>1</sub>X

# Course offered for

- Mechanical Engineering, M Sc in Engineering
- Design and Product Development

# **Entry requirements**

Note: Admission requirements for non-programme students usually also include admission requirements for the programme and threshold requirements for progression within the programme, or corresponding.

### Examination

UPG1 Group assignment with oral and written presentation 2 credits U, G
TEN1 Written examination 4 credits U, 3, 4, 5

#### Grades

Four-grade scale, LiU, U, 3, 4, 5

# Department

Institutionen för ekonomisk och industriell utveckling

# Director of Studies or equivalent

Petter Hallberg

#### **Examiner**

Mikael Derelöv

# Course website and other links

Education components
Preliminary scheduled hours: 48 h
Recommended self-study hours: 112 h

# Course literature

Fastställs senare

### **Common rules**

Regulations (apply to LiU in its entirety)

The university is a government agency whose operations are regulated by legislation and ordinances, which include the Higher Education Act and the Higher Education Ordinance. In addition to legislation and ordinances, operations are subject to several policy documents. The Linköping University rule book collects currently valid decisions of a regulatory nature taken by the university board, the vice-chancellor and faculty/department boards.

LiU's rule book for education at first-cycle and second-cycle levels is available at http://styrdokument.liu.se/Regelsamling/Innehall/Utbildning\_pa\_grund\_och\_avancerad\_niva.
