2017-01-25

Main field of study

No Main Field of Study

Course level

First cycle

Advancement level

G1X

Course offered for

- Civil Engineering, B Sc in Engineering

Entry requirements

Note: Admission requirements for non-programme students usually also include admission requirements for the programme and threshold requirements for progression within the programme, or corresponding.

Intended learning outcomes

The aim of the course is to make the students well orientated about the legal system in general and within areas concerning building business out of the contractor's point of view in particular. The students should, as far as concerns the areas mentioned under "Course contents" below, be able to:

1. Use basic legal concepts; Perspicuously reproduce legal rules as well of the areas of application for laws and standard agreements;
2. Identify areas of application for laws and standard agreements;
3. Analyse a legal rule in terms of legal facts and consequences; Perspicuously explain basic legal concepts and principals; Relate a legal rule and apply it to a given situation;
4. Assess and evaluate given information out of a legal perspective; Assess the legal consequences of a more complex situation.

Course content

The legal System. Civil Law, generally. Law/Legal system of Property, Associations, Damages, Real Estate, Contracting and Purchasing

Additional literature

Books

Agell-Malmström, *Civilrätt*

Söderberg, Jan, *Att upphandla byggprojekt*

Compendia

Common rules

Regulations (apply to LiU in its entirety)

The university is a government agency whose operations are regulated by legislation and ordinances, which include the Higher Education Act and the Higher Education Ordinance. In addition to legislation and ordinances, operations are subject to several policy documents. The Linköping University rule book collects currently valid decisions of a regulatory nature taken by the university board, the vice-chancellor and faculty/department boards.

LiU's rule book for education at first-cycle and second-cycle levels is available at http://stydokument.liu.se/Regelsamling/Innehall/Utbildning_pa_grund-_och_avancerad_niva.
