## Course offered for

• Master of Science in Energy - Environment - Management

## Prerequisites

Senior highschool physics. Basic mathematical abilities. Derivatives and integrals. Complex numbers.

### Examination

| LAB1 | Laboratory Work     | 2 credits | U, G       |
|------|---------------------|-----------|------------|
| TEN1 | Written examination | 4 credits | U, 3, 4, 5 |

### Grades

Four-grade scale, LiU, U, 3, 4, 5

## Other information

#### About teaching and examination language

The teaching language is presented in the Overview tab for each course. The examination language relates to the teaching language as follows:

- If teaching language is "Swedish", the course as a whole could be given in Swedish, or partly in English. Examination language is Swedish, but parts of the examination can be in English.
- If teaching language is "English", the course as a whole is taught in English. Examination language is English.
- If teaching language is "Swedish/English", the course as a whole will be taught in English if students without prior knowledge of the Swedish language participate. Examination language is Swedish or English depending on teaching language.

#### Other

The course is conducted in a manner where both men's and women's experience and knowledge are made visible and developed.

The planning and implementation of a course should correspond to the course syllabus. The course evaluation should therefore be conducted with the course syllabus as a starting point.

The course is campus-based at the location specified for the course, unless otherwise stated under "Teaching and working methods". Please note, in a campus-based course occasional remote sessions could be included.

If special circumstances prevail, the vice-chancellor may in a special decision specify the preconditions for temporary deviations from this course syllabus, and delegate the right to take such decisions.
