

Master's Programme in Science for Sustainable Development

120 credits

Master's Programme in Science for Sustainable
Development

F7MSU

Valid from:

Determined by
Board of the Faculty of Arts and Sciences

Date determined

Entry requirements

A bachelor's degree in either natural sciences, social sciences, health sciences, humanities or engineering or equivalent, that relates to environmental, social or economic aspects of sustainable development.

Each applicant must enclose a Letter of Intent written in English, explaining why they want to study this programme, and a summary of their bachelor's essay or project. If applicants hold a degree that does not include a bachelor's essay or project, their Letter of Intent should describe previous studies and any academic activities that are related to the master's programme applied for.

Send the Letter of Intent and other supporting documents to University Admissions in Sweden, FE 1, SE-833 83 Stroemsund, Sweden.

Degree in Swedish
